## **DETAILED ACTION**

### **Reasons for Allowance**

The following is an examiner's statement of reasons for allowance:

The prior art does not teach or fairly suggest a method of protein engineering including the steps of creating a computer database with a framework protein of 70 amino acids or less with 1-11 disulfide bonds, wherein the location and orientation of each side chain is represented by  $\text{Ca-C}_\beta$  and searching a database to identify amino acids of the framework protein to determine which amino acid residues are to be substituted to modify the framework protein and thereby physically creating an engineered framework protein with a particular property, characteristic, or function.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
